Brand Core

BRAND NAME

Impulse Digital

Impulse Digital is the full brand name. Impulse is acceptable in conversational or internal contexts. Avoid shortening to *ID* externally.

CORE IDEA

Momentum for brands with appetite.

WHAT APPETITE MEANS

Appetite does not refer to company size or stage. A startup can have appetite. A legacy business can have appetite. A conglomerate can have appetite. The common factor is willingness: to move, question, improve, experiment, challenge default thinking, and expect more from marketing.

BRAND CATEGORY

**Strategic digital
growth partner.**

DO NOT POSITION AS

- × Digital marketing agency
- × Social media agency
- × Vendor · Task shop

- × 360-degree agency
- × Performance agency
- × Creative agency without business accountability

Brand Belief

"The best brands are never truly still."

CORE BELIEF

Marketing should not become maintenance. It should create momentum. That momentum comes from strategy, creativity, content, search, performance, technology, AI, and execution moving in the same direction.

BRAND LINES

- | The best brands are never truly still.
 - | Momentum for brands with appetite.
 - | Teams go further in formation.
 - | Move sharper. Move together. Move the business.
-

THE ENEMY

Marketing without appetite
becomes maintenance.

The enemy is not a competitor. It is inertia; the slow drift toward doing things because they have always been done. Impulse exists to resist that drift.

Impulse helps brands turn appetite into **momentum.**

EXPANDED PROMISE

We work with brands that have appetite, the willingness to move, challenge, and expect more. Our role is not to manage marketing. Our role is to build momentum that moves the business forward.

Strategy. Creativity. Content. Search. Performance. Technology. AI. All moving together. All pointed at growth.

INTERNAL MANTRA

Move sharper.
Move together.
Move the business.

Positioning

Impulse Digital is positioned as a **strategic digital growth partner**, not a conventional marketing agency. The distinction is intentional. Impulse does not sell services. It builds the commercial momentum that moves brands forward.

WHAT IMPULSE IS

- A strategic digital growth partner
- A business-first marketing team
- A long-term growth collaborator
- Results-accountable across strategy and execution
- A partner that moves with you

WHAT IMPULSE IS NOT

- ✗ A traditional digital marketing agency
- ✗ A social media management service
- ✗ A performance-only media buyer
- ✗ A vendor that fulfils briefs
- ✗ A task shop for creative output

The category framing matters. It shapes client expectations, pricing conversations, team culture, and the kinds of briefs Impulse accepts. Every touchpoint should reinforce this positioning; from proposals to case studies to how the team introduces themselves.

Logo Story

"Teams go further **in formation.**"

THE FORMATION

The Impulse Digital mark is inspired by the flight formation of cranes. When cranes migrate, they fly in a rounded V formation. The bird in front cuts through resistance for the birds behind it.

As the journey continues, leadership shifts, so no single bird carries the weight alone. If one bird needs to leave the formation, others move with it. This allows the flock to cover extraordinary distances together.

For Impulse, this represents the way meaningful momentum is built: through alignment, shared strength, trust, and strategy and execution moving as one.

The mark is not decorative. It is a distillation of the brand's core belief: momentum is built together, not alone.

BRAND MARK

Logo System

FULL LOGO LOCKUP

BRAND MARK

USAGE REFERENCE

VARIANT	APPLICATION	FORMAT	MASTER FILE
Full Logo	Preferred in all primary applications	SVG / PNG	ImpulseDigital_Logo.svg
Brand Mark	Profile images, icons, favicon, stamp	SVG / PNG	ImpulseDigital_Mark.svg
White Variant	Dark and coloured backgrounds	SVG / PNG	ImpulseDigital_Logo_White.svg
Black Variant	Monochrome applications only	SVG / PNG	ImpulseDigital_Logo_Black.svg

Logo on White

Full colour — White background

#FFFFFF

Full colour — Soft Grey background

#F5F5F7

USAGE RULES

- Always use the full-colour version as the primary logo on light backgrounds.
- The full logo (wordmark + mark) is preferred over the mark alone in most contexts.
- Ensure adequate clear space on all sides — minimum X unit (see page 14).
- Do not place the logo on busy or patterned backgrounds.
- Soft Grey (#F5F5F7) is an approved alternative to white for brand materials.

White and Soft Grey are interchangeable for most applications. White is the default. Soft Grey adds depth in multi-panel layouts, cards, and document sections where contrast between adjacent whites is needed.

Logo on Dark

All-white — Core Black background
#020018

All-white — Deep Navy background
#0F172A

USAGE RULES

- Use the all-white logo variant on any dark or deep-toned background.
- Core Black (#020018) is the primary dark background — use the white logo variant only.
- Deep Navy (#0F172A) is approved for dark-mode digital interfaces.
- Never use the full-colour logo on dark backgrounds — the black wordmark will disappear.
- The white mark alone may be used as a standalone element on dark sections.

Dark backgrounds should always use **all-white only**. Never reproduce the violet boomerang separately on dark pages unless it is the standalone mark at full scale.

Logo on Colour

All-white — Impulse Violet background
#543D98

All-black monochrome — White background
Single-colour applications only

USAGE RULES

- Impulse Violet (#543D98) is the only approved coloured background for the logo.
- Use the all-white logo variant on the violet background — never the full-colour version.
- The all-black (monochrome) variant is approved for single-colour print applications.
- Never use the logo on any other colour — not even a tint or shade of violet.
- Coloured logo backgrounds should be used sparingly — not as a default.

Monochrome applications include embroidery, single-colour print (business cards, letterhead), and any context where colour reproduction is not possible or not appropriate.

Logo on Images

White logo — Dark scrim
Core Black scrim at 60% opacity

Full-colour logo — White plate
White plate with 14px padding

USAGE RULES

- Always apply a dark scrim (Core Black at 50–70% opacity) beneath the white logo on photographic backgrounds.
- Place the logo on a white plate (a small opaque white rectangle) as an alternative treatment on lighter image areas.
- Never place the logo directly over a complex or busy image without a protective treatment.
- Avoid logo placement on areas of high detail, patterns, or competing shapes.
- When in doubt, use a flat background instead of photography beneath the logo.

Logo Placement

Top Left

Preferred

Top Right

Allowed

Bottom Left

Allowed

Bottom Right

Use carefully

PLACEMENT PRINCIPLE

- Top-left is the default and preferred placement across all formats.
- Bottom-left is reserved for document sign-offs, footers, and presentations.
- Never centre the logo unless on a symmetrical, dedicated logo page.
- Top-right is acceptable where layout hierarchy demands it.
- Bottom-right should be used with caution — it competes with reading direction and should only be a last resort.
- Maintain consistent logo size relative to the format across all materials — do not scale up or down arbitrarily.

Clear Space & Minimum Size

CLEAR SPACE

X is defined as the height of the capital 'I' in the Impulse wordmark. Maintain this as minimum clear space on all four sides at all times.

MINIMUM SIZE

CONTEXT	FULL LOGO	SYMBOL
Digital	160 px	32 px
Print	35 mm	8 mm
Favicon / App Icon	—	16 px

Never reproduce the logo below these sizes. At minimum size, legibility and brand integrity are at risk. Use the standalone mark for very small applications.

 160px — Digital min.

 32px — Symbol digital min.

Incorrect Logo Usage

Do not stretch
Never distort aspect ratio

Do not rotate
Always keep upright

Do not add effects
No shadows, glows, or outlines

Do not recolour
Only approved colour variants

Do not use on busy bg
Unreadable on complex images

Do not crop
Never cut any part of the logo

Do not rebuild
Use only approved master files

Do not separate
Mark and wordmark as one unit

If it is not explicitly approved, it is not permitted.

Colour Palette

Core Black #020018	Deep Navy #0F172A	Impulse Violet #543D98	White #FFFFFF	Soft Grey #F5F5F7
---	--	---	--	--

COLOUR USAGE

Core Black #020018
Primary brand presence, dark sections, high-contrast layouts, serious communication.

Deep Navy #0F172A
Secondary dark backgrounds, depth, structured layouts, digital dark-mode interfaces.

Impulse Violet #543D98
Main accent for CTAs, highlights, active states, visual emphasis. Use with restraint.

White #FFFFFF
Main background colour. Dominant presence across all materials and formats.

Soft Grey #F5F5F7
Soft backgrounds, section separation, content cards, premium spacing.

The brand is not overly purple. Black, white, and spacious layouts carry the identity. Impulse Violet is a controlled accent, not the entire personality. Most materials should be predominantly white or black, with violet used for one deliberate focal point per composition.

Caption	Inter Regular	7–8pt	Labels, metadata, footnotes
Label	Inter Medium	7pt / UC	Section identifiers, UI labels, tags

Brand Personality

Sharp

Clear thinking, precise language, no filler. Every word earns its place.

Restless

Always questioning, always improving. Never satisfied with good enough.

Strategic

Decisions rooted in business logic, not just creative instinct.

Human

Approachable and direct. Real language — no jargon, no corporate distance. Warm but not casual.

Brave

Willing to say what others won't. Clear on what works and what doesn't.

Accountable

Outcomes matter more than output. Results over activity, always.

VOICE DIRECTION

Sound like	Decisive, clear, commercially sharp, direct, purposeful
Tone	Confident but grounded. Ambitious but honest. Premium but accessible.
Never sound like	Corporate, vague, hypey, desperate, academic, or generic

tone spectrum

Premium but not corporate

Strategic but not academic

Confident but not desperate.

Sharp but not gimmicky

Human but not casual

Services as Business Levers

Every service Impulse offers is positioned as a business lever, not a deliverable. Services are tools that generate commercial momentum when deployed with strategy and intent.

01	Brand Strategy	→	The commercial foundation that makes every other lever more effective.
02	Content Marketing	→	Ideas with staying power. Content that builds authority, not just traffic.
03	SEO & Organic Search	→	Long-term visibility that compounds. Owned, not rented.
04	Paid Media & Performance	→	Precision spend. Every rupee pointed at measurable business return.
05	Social Media	→	Presence with purpose. Building brand equity, not just filling a content calendar.
06	Email & CRM	→	The highest-return channel when done with intelligence and intent.
07	Web & Digital Experience	→	The conversion layer. Where all momentum either lands or leaks.
08	Creative & Design	→	Visual language with commercial logic behind every decision.
09	Analytics & Reporting	→	Clarity over data. Insight that drives action, not just observation.
10	AI Integration	→	Applied intelligence across every lever — making Impulse and its clients faster and sharper.

ON AI

AI is not a separate service, it is a multiplier across every lever. Impulse applies AI to strategy, content, search, performance, and analytics to make work faster, sharper, and more commercially precise.

The best brands
are never
truly still.

Momentum for brands with appetite.
